The Combi offset rotary press with variable format combines in line the advantages of offset and flexo printing, allowing any type of composition according to the client, with the combination of various printing elements (Offset, Flexo, Serigraphy, gravure etc.), processing (die cutting, hot and cold stamping, embossing) and finish (web, sheeter, etc.). There are no limits to the configuration of the Combi rotary press narrow web, be it for the production of any type of labels, covers, flexible films and other products requiring a complex printing process.

Asset-Trade

Assessment & Sale of Used Assets

The fundamental press is made of unwinder, web centering equipment, flexo and offset printing units, cold stamping, hot stamping, die cutting, video camera and rewinder. On this basis, we create the configuration that fits the client's production needs best.
