Assessment & Sale of Used Assets

Description:

Reference Specification Sheet: The **INDEX V300** by **INDEX** is widely recognized as a high-precision **CNC Lathes** for demanding manufacturing applications. Typical for this series is the proven **C200-4** CNC control. This unit was successfully brokered via Asset-Trade. The verified technical specifications and photo documentation serve as a reliable market and valuation benchmark for buyers and sellers.

Technical Key Facts & Specifications

Manufacturer	INDEX Machines
Model / Series	V300
Category	CNC Lathes
CNC Control	C200-4
Year of Build	2002

Machine Weight approx. 8.500 kg

Status: Brokered & Sold (Archive & Valuation Benchmark)

Used INDEX V-300 - Vertical Turning Center for heavy machining.

- Control Siemens C200-4D
- X-Axis 1500mm
- Z-Axis 340mm
- Rapid traverse 30 m / min
- Spindle nose A8
- Numbers of revolution spindle / counter spindle 4200/6000
- Revolver 6000
- Hydraulic clamping circuit
- Tool places 12
- Counter spindle A4
- Range Encourage Oval
- Number of carriers 22
- Schnaithmann
- Coolant cleaning system 200Liter max 20 bar
- Power requirement 55 KW

The V-300 is a Turning Center, a Turn-Mill Center and or a Turn-Grind Center.

A perfectly tailored Customized Solution: You determine yourself which options you want. Our clearly structured modular system offers you the unique advantage of incorporating precisely the functions that you need for solving your specific production tasks. No more and no less

Features

- Powerful motor spindle.
- Large, ergonomic, and easily accessible work area .
- Flexible tooling area for specialized machining methods.
- More possibilities with a second turret .
- Y/B-axis for angular and off-axis drilling and milling.
- Easy linking of single machines with the circulating pallet system PUS.

You decide on the configuration of the machine. The clearly structured building block system offers the distinct advantage of incorporating exactly those functions into the machine that are necessary for your applications – not more, not less.

The large and freely accessible work area offers unlimited opportunities for the use of tool carriers. For instance a quick-index turret with up to 12 driven tools for complex turning, milling and drilling work combined with a clamping plate with up to 6 stations. This combination will be especially interesting if additionally you want to use large-sized units such as turning, drilling, reaming and threading tools, long boring bars or powerful milling cutters.

Looking to sell a used INDEX machine?

Asset-Trade provides free, certified **machinery valuation** for used INDEX machines, **workshop liquidations**, and complete **company liquidations**. We market your equipment directly to our global network of over 100,000 verified industrial buyers.
