Ref. No.: 701-01250900

Overview and Technical Data:

OKUMA - MULTUS B400II Mill/Turn Centre

OKUMA

Asset-Trade

Assessment & Sale of Used Assets

Description:

Reference Specification Sheet: The multitasking turn-mill center **OKUMA MULTUS B400II** by **OKUMA** embodies the 'Done-in-One' philosophy for full 6-sided complete component machining in a single setup. Equipped with a continuous B-axis milling spindle, sub-spindle, and native OSP controller (OSP-P300S), it sets the benchmark in precision and setup time elimination. This unit was successfully brokered via Asset-Trade. The verified technical specifications, engineering performance data, and photo documentation serve as an authoritative market and valuation benchmark for buyers and sellers.

Technical Key Facts & Specifications

Manufacturer	OKUMA Machine Tools
Model / Series	MULTUS B400II
Category	CNC Lathes
CNC Control	OSP-P300S
Year of Build	2014
Spindle Speed max.	3.800 RPM
Tool Magazine	20 Pockets
Spindle Hours	665 hrs
Machine Weight approx.	7.000 kg

Status: Brokered & Sold (Asset-Trade Archive & Valuation Benchmark)

Used OKUMA MULTUS B400II turning / milling center

ONLY Operating hours 2956

Spindle 665 hours

Technical specifications

- CNC OKUMA OSP-P300S
- Max. Turning diameter 710 mm
- Max. Turning length 1.550 [2.050] mm
- Main spindle speed 3,800 [2,800] min-1
- number of tools
- H1-ATC: 20 [40, 80, 120]

- Motor (VAC) 22/15 [30/22] KW
- Rapid traverse X-Y-Z 40/26/40 m / min
- 5,750 x 2,693 mm footprint

The Okuma MULTUS B Series machines are general purpose multi-function CNC lathes that are designed to reduce set up time by virtually eliminating repetitive fixturing to improve accuracy and keep non-cutting time to a minimum. They feature the industry's first Collision Avoidance System software. Combined with Okuma's THINC®-OSP Control, this software can run the entire machining simulation and catch potential collisions before they create scrap. Thermal-Friendly Construction assures high accuracy, even in the most complex applications. Options include the W version with sub-spindle, designed to hand the part from one spindle to the other to complete milling and turning operations without changing the part.

The MULTUS B400II is the ultimate fusion of turn-mill operations, with lathe, vertical or horizontal machining center and material handling operations consolidated into one 10-12 inch chuck class machine. This multi-tasking CNC machine performs process-intensive machining for shorter deliveries, while making more effective use of floor space. With fewer setups, work in process is drastically reduced and machine utilization is greatly increased.

The MULTUS B400II has a 225° B-axis range with 6,000 rpm H1-milling spindle with dual function (L/M). The H-1 dual function spindle head utilizes CAPTO-C6 tooling and has an 18/13 hp PREX milling motor spindle. The base offering has 40-tool ATC, with an optional 60-tool ATC available. The H1-turret has a 0.001 degree B-axis and compound motion Y-axis for machining flexibility. The main spindle is equipped with a full contouring C-axis.

Thermo-Friendly Construction assures high accuracy, even in the most complex applications, and the optional W version with sub-spindle allows a part to be handed from one spindle to the other. The MULTUS B400II is equipped with Okuma's THINC-OSP P300S control that is designed with ease of operation in mind. With single-mode operation and superior graphics, novice operators as well as professional machinists will experience a smoother, more effective way of producing parts.

Frequently Asked Questions (Buyers & Sellers) about OKUMA MULTUS B400II

Is this used OKUMA MULTUS B400II currently still available?

This specific **OKUMA MULTUS B400II** has been successfully brokered by Asset-Trade and is already sold. However, we continuously source equivalent machinery. Submit a non-binding sourcing inquiry – our global dealer network will promptly locate identical or

comparable equipment for your facility.

How does the 'Done-in-One' architecture of the OKUMA MULTUS B400II benefit production?

With its articulating B-axis milling spindle, C-axis turning capability, and sub-spindle, the **OKUMA MULTUS B400II** executes turning, 5-axis milling, drilling, and tapping in a single clamping, eliminating secondary part setups and fixture errors.

What is a used OKUMA MULTUS B400II worth in today's market?

The residual market value of a used **OKUMA MULTUS B400II** (built 2014) is determined by operating hours, spindle condition, geometric tolerances, tooling options, and the installed OSP-P300S control. Asset-Trade delivers a certified, complimentary valuation based on real global transaction data. Request your free machine valuation now.

I want to sell a OKUMA machine or complete manufacturing line – how does Asset-Trade help?

Asset-Trade provides complete turnkey asset disposal: We purchase well-maintained **OKUMA** machinery directly for cash or broker it globally to over 100,000 vetted industrial buyers. We handle professional electrical/mechanical decommissioning, heavy industrial rigging, customs clearance, and clean-floor site handovers.

Looking to sell a used OKUMA machine or production line?

Asset-Trade purchases high-quality **OKUMA** machine tools directly for cash or markets full **plant liquidations** and **workshop closures** globally to 100,000+ verified industrial buyers. Request your complimentary **machinery valuation** today!

Technical Data:

Technical Data:

Control: OSP-P300S
Machine Hours: 2956.00 hrs.
Spindle Hours: 665.00 hrs.
Turning length: 1500.00 mm
Turning diameter: 710.00 mm
Spindle Speed: 3800.00 rpm
Driven Tools: 20.00
Tool Capacity: 20 x
Tailstock: Yes
Bezel: No

Dimensions and Weight:

Length: 5750 mm
Width: 2693 mm
Weight: 7000 kg

Buyer Information:

Condition: Like New
Available: Sold
Sold as:
