- Dimensions 6.2 x 3.9 x 3.4 m

The condition of the machine is as new as it was almost never used.

The MIKROMAT 60SC is a universal machine which, as a true production machine, also guarantees a highly exact machining under normal conditions.

The pneumatic, micrometer-precise clamping system on the carriage of the U-axis allows the automatic exchange of different, pre-set grinding spindles and a measuring probe. The selected solution for the arrangement of this assembly does not restrict the working space.

The overall speed range is thus also usable in automatic mode.
