The model for more comfort

The tried-and-tested machine with the optional additional units, surface scraper and corner milling machine, offers high-performance complete machining for the carpentry trade.

The AKV 3003 DK-F offers a variety of configuration options so that all essential tasks of modern edge processing can be fulfilled one hundred percent. As with all Hebrock models in the 3000 series, only diamond-tipped jointing cutters are used for excellent processing quality and a long service life.
