Overview and Technical Data:

SWA/Kiefel Madillon punching Press 500kn Hydraulic

KIEFEL

Year of Build:
Jan 2012

Description:

Used SWA/KIEFEL punch press 500kN - Madillon punching

- CNC control Siemens
- Tool type: Pressure generator with punching tool

Technical data:

- Table surface (WxD): 2500 x 1200 mm
- Clamping force: 500 kN
- Opening width: 1000 mm
- Opening force: 200 kN
- Follow-up time: 273 ms
- Safety distance: 780 (to be 500) mm
- Operating pressure hydraulics: max. 220 bar
- Operating pressure pneumatics: min. 6 bar
- Hydr. tank capacity: 630 l
- Connected load: 115 kW
- Operating voltage and frequency: 400 V/ 50 Hz
- Weight: 19.000 kg

Still under Power. Further data on request

SWA has hydraulic presses with a clamping force of up to 500 tonnes. We use our presses to adjust moulds and to produce tryouts and prototypes.

Punching tools cut outer, inner contours and holes on previously pressed, injection moulded or foamed components. We specialise in stamping the highest quality three-dimensional products such as complete instrument panels, door panels and headliners as well as acoustic and insulation parts.

SWA develops and manufactures tools, machines and systems for the production of vehicle interior, exterior and acoustic insulation parts, especially for customers in the automotive industry and its suppliers.

SWA produces tools, machines and systems for the production of interior, exterior and acoustic insulation parts for vehicles. These products from SWA are available for use at all major automotive production sites and are therefore the ideal complement to the Kiefel technology portfolio.

Technical Data:

Technical Data:

Control:
SIEMENS

Dimensions and Weight:

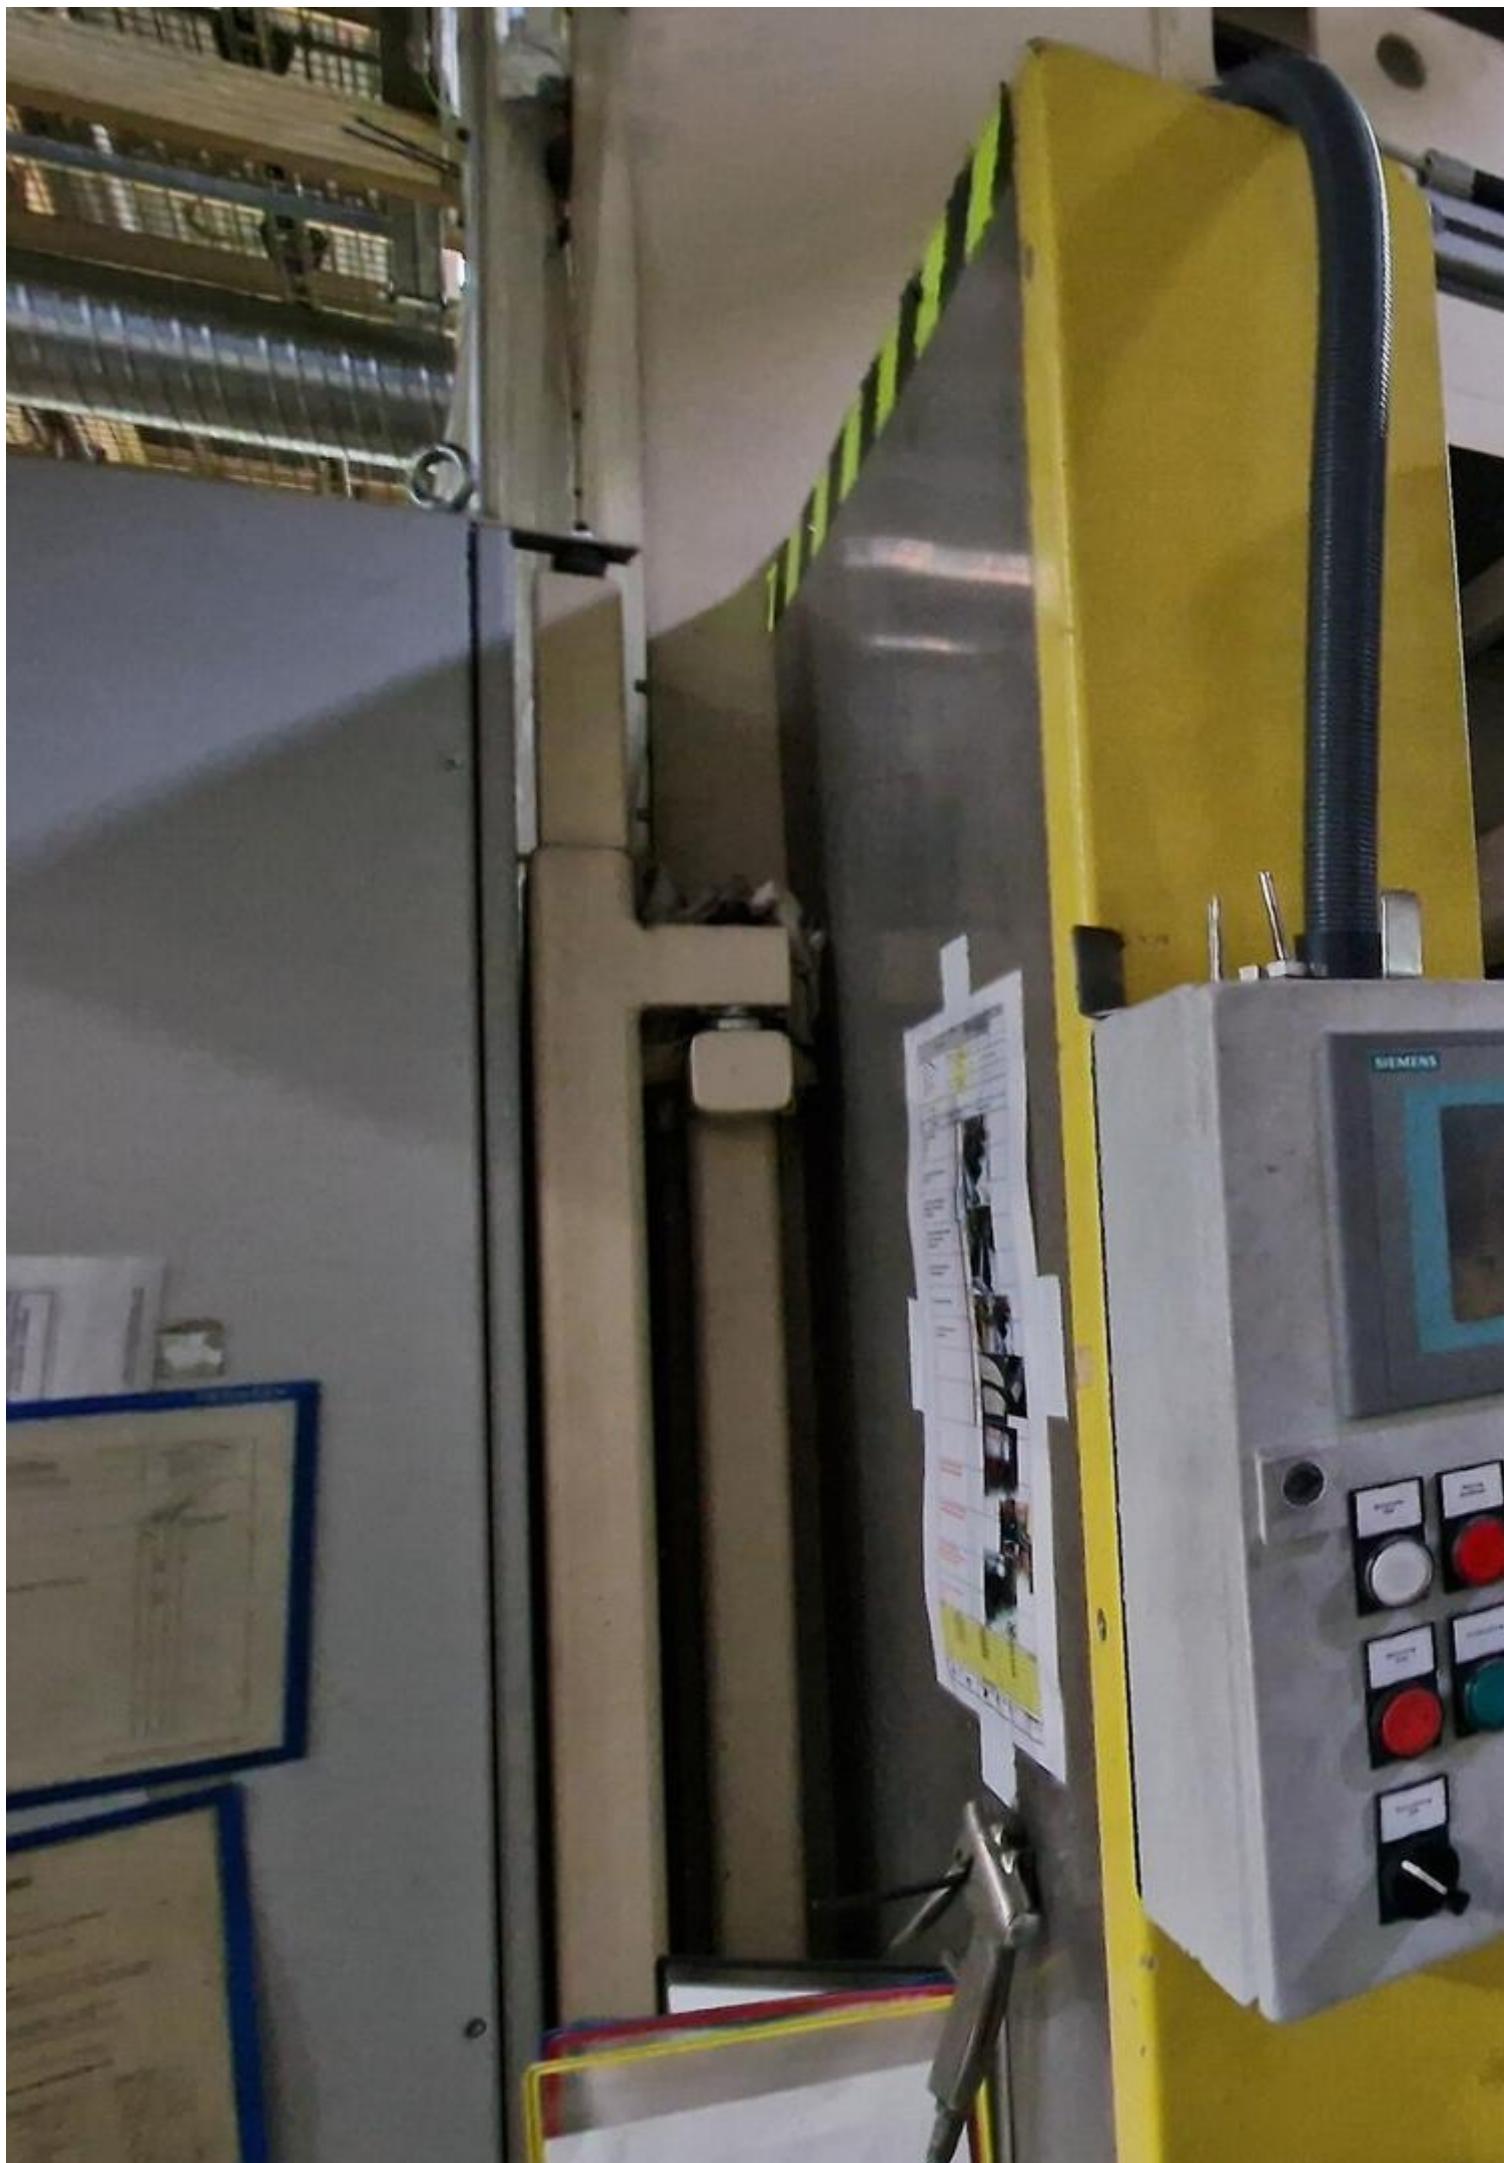

Height:
4.400 mm
Length:
4.500 mm
Width:
3.800 mm
Weight:
19.000 kg

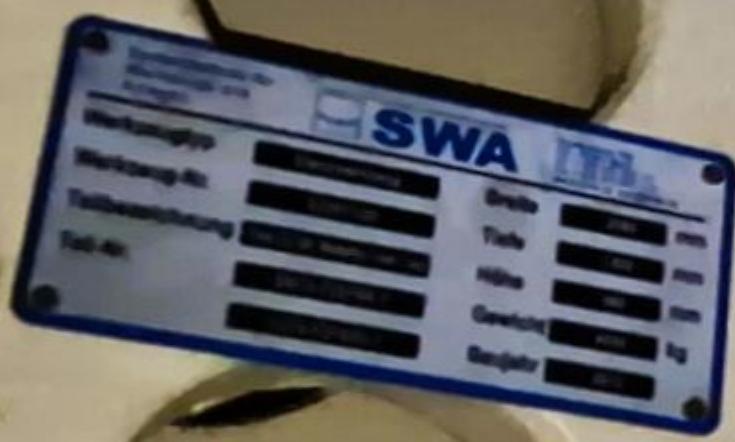

Buyer Information:

Condition:
Very good condition
Available:
Immediately
Sold as:
EXW (Ex Works - Incoterm)
VAT:
19 %
Buyers Premium:
18 %
Location:
Germany
