Overview and Technical Data:

Used QUASER MV 204V / 12B CNC Vertical Machining Center

QUASER

Year of Build:
Dec 2014

Description:

Used QUASER MV 204 V / 12 B CNC vertical machining center - Precise and powerful

Are you looking for a reliable used QUASER MV 204 V to support your production efficiently? This CNC vertical machining center for sale offers you outstanding precision and performance with a compact footprint. The MV series of vertical machining centers impresses with its high speed and robust design for the most demanding machining tasks.

- The machine is in excellent condition
- Control: CNC Heidenhain TNC 530 for precise control and easy operation.
- Operation: 16,357 hours

Technical Data:

- XYZ – ca. 1.200/700/600mm
 - Spindle speed: 12 000 rpm
 - Clamping surface: 1,400 x 700 mm
 - Max. workpiece weight: 1,000 kg
 - Weight: 9500 kg
 - Toolholder: 48x
 - Chip Conveyor AME, Typ SB 250
 - Colling Filter: 1.0001
-

Why this machine?

1. QUASER MV 204 V used is the ideal choice if you need a high-precision and high-performance used precision CNC machining center.
2. With this machine, you benefit from buying a CNC vertical machining center that delivers outstanding results with minimal space requirements.
3. Rely on high-quality used vertical machining centers Germany that offer a cost-effective and powerful solution for your machining needs.
4. As part of Industrie Maschinenhandel Vertical Centers, we offer you tested machines that are both efficient and reliable.

This QUASER MV 204 V / 12 B offers you the ideal blend of precision and performance. Benefit from a reliable machine that will take your production to the next level.

Contact us today to find out more about buying this high-precision CNC vertical machining center or to arrange a viewing.
