Overview and Technical Data:

Used DMG HSC 105 linear Vertical Machining center

[DMG MORI SEIKI](#)

DMG

Year of Build:
Jan 2009

Description:

Used DMG HSC 105 linear - Your high-speed machining center

Are you looking for a reliable used high-speed machining center to optimize your production? The DMG HSC 105 used offers impressive precision, speed and reliability - ideal for demanding manufacturing tasks in industry.

- Operating hours: 49,679 hours
- CNC control: Heidenhain iTNC 530 HSCI for high-precision control.

Technical data:

- Speed: 18,000 rpm
- Workpiece weight: 1,300 Kg
- Traverse path X: 1,050 mm
- Travel Y: 800 mm
- Travel Z: 560 mm
- Weight: approx. 14,000 kg

- Clamping surface: 1,200 x 850 mm
 - Spindle:
 - Power: 35 kW
 - Torque: 130 Nm
 - Speed: 18,000 rpm
 - Tool holder: HSK 63
 - General:
 - Tool magazine 60-fold
 - Feed rate 90 m/min
 - Clamping area: 1,200 x 850 mm
 - Workpiece weight max. 1,300 kg
-

Why this machine?

- Perfect for companies that want to buy a vertical machining center that works precisely and efficiently.
- Proven quality from CNC machining centers Germany, ideal for various industrial applications.
- Attractive solution in industrial machine trade vertical centers that saves cost and time without compromising on performance.

Applications:

Suitable for automotive, engineering, aerospace and other industries that require precise and fast machining processes.

Contact us today to find out more about this DMG HSC 105 used or to arrange a viewing. Secure this top model and benefit from proven technology at a fraction of the cost of new machines.

Safety instructions
Read the safety instructions carefully before operating the machine.
The machine is equipped with safety features to protect the operator.
Always use the safety features correctly.
Do not touch the moving parts of the machine.
Do not use the machine if you are tired or under the influence of alcohol or drugs.
Do not use the machine if you are not trained and authorized to do so.
Do not use the machine if the safety features are not working properly.
Do not use the machine if the machine is not properly maintained.
Do not use the machine if the machine is not properly calibrated.
Do not use the machine if the machine is not properly adjusted.
Do not use the machine if the machine is not properly checked.
Do not use the machine if the machine is not properly inspected.
Do not use the machine if the machine is not properly tested.
Do not use the machine if the machine is not properly certified.
Do not use the machine if the machine is not properly approved.
Do not use the machine if the machine is not properly registered.
Do not use the machine if the machine is not properly licensed.
Do not use the machine if the machine is not properly insured.
Do not use the machine if the machine is not properly bonded.
Do not use the machine if the machine is not properly bonded.

0 5 0 0 2 4 h

BAUSER

A black rectangular digital counter with two rows of seven-digit displays. The top row shows '4 9 6 8 0 5 h' and the bottom row shows '0 5 0 0 2 4 h'. Above the top row is a lightning bolt symbol, and above the bottom row is a right-pointing arrow symbol. The brand name 'BAUSER' is printed at the bottom.

0 I

A rotary switch with a sun symbol in the center. The positions are labeled '0' on the left and 'I' on the right. The switch is currently in the '0' position.
