Overview and Technical Data:

MECOF - CS 500 HSC CNC milling machine with automatic birotary head

[MECOF](#)

the 1990s, the number of people in the world who are illiterate has increased from 400 million to 500 million.

There are many reasons for this. One is that the population of the world is growing so fast that the number of people who are illiterate is increasing.

Another reason is that the quality of education is so poor that many people who are in school are not learning to read and write.

There are also many people who are illiterate because they do not have access to schools or because they cannot afford to go to school.

It is important to find ways to help these people learn to read and write so that they can improve their lives.

One way to do this is to provide basic literacy training to people who are illiterate.

Another way is to improve the quality of education so that more people can learn to read and write.

It is also important to provide access to schools for people who do not have access to them.

Finally, it is important to provide financial support for people who cannot afford to go to school.

By doing these things, we can help to reduce the number of people who are illiterate in the world.

This is a very important goal, and we must all work together to achieve it.

Let us all do our part to help the people of the world learn to read and write.

Together, we can make a difference.

Let us all work together to help the people of the world learn to read and write.

Year of Build:
Jun 1997

Description:

Used MECOF CS 500 HSC CNC horizontal boring and milling machine / Travelling column milling machine

- Operation time about 5.080 hrs
- Control Fidia M
- Travel
 - X 6000 mm
 - Y 1000 mm
 - Z1900 mm
- Universal milling head
- A 3 ° axis indexed
- 1 ° B axis indexing
- Spindle speed to 4,000 rpm
- Additional electric spindle up to 20,000 rpm
- SK 50/40 fold tool changer
- External tool changer HSK 50
- Accessories
 - clamping material
 - Tools
 - Tool kit
- Only used in 2 Shift operation

More details see PDF
