More Data to follow

These combination machining centers/turning centers are by far the most advanced Multi-Tasking machines in the industry. Complete all operations in a single setup – turning, milling, boring, drilling, etc. This Done-in-One machining concept can now be applied to small and very complex parts. The advanced B-Axis turret design with Y-Axis capability is available on all models. And, deep-hole boring is available on some horizontal models. This is Mazak Multi-Tasking at its finest!

The Integrex e-Series machine is equipped with the unique Mazak e-Tower. From this information center, setup support, maintenance support, manuals, work scheduling and much more are made accessible either in-office or off-site. It's like having your own assistant right there at the machine.
